

Bug Fixes in Ver.5.04

27859	MissingFileException when trying to delete an existing directory
27851	Fix for 27053 breaks listing a directory with a trailing slash
27705	intermittent error reading applet source

Bug Fixes in Ver.5.03

17948	CDE	debugger calls methods on foreign objects
27416	CDE	URL mapping not applied to breakpoints of re-opened project
24672	Core	panic with BadStateSocketException: AcceptorTCPSocket.set-listen-backlog
25378	Core	Deadlock in applet creation due to 'browser-resident-http'
26304	Core	panic from Internal error, unbalanced sync-opening removal
26783	Core	Problems caused by HTTP files going backward in time
26829	Core	panic with BadStateSocketException: DataTCPSocket.finish-connect
27053	Core	Certain characters make directory listing fail on Japanese Windows
27070	Core	problem with browse-url in a detached applet
27442	Core	file system error causes panic from check-for-important-update
26566	Documentation	IDE islington features aren't yet documented
27384	Documentation	Validation example problem in DGuide
26957	Graphics	Implement fix for SurfaceTooLarge on dev/trunk
27073	Graphics	Add support for Ambient properties in ActiveX container or fix embedded webcontrol session clearing behavior
27300	Graphics	chart printing - what you see is not what you get
27436	Graphics	Add multi-image TIFF support
27569	Graphics	ShapeLabelButton shows up all black on ME
25381	GUI	RecordGrid freeze can cause disjoint row heights
27066	GUI	supplementary chars do not display on win32 systems
27068	GUI	TextEditPanel throws exception upon entering supplemental character
27238	GUI	Validator.from-ValidationPattern reaches unreachable code
27283	GUI	AntialiasMixin needs to be optimized
27394	GUI	RecordGridPaste can pick wrong start row
27401	GUI	closing dialogs can result in CastException
27402	GUI	multiple ValueFinished events for one change in DateField
27427	GUI	Tab titles of choose-color-string color chooser need translation
27431	GUI	problems when rapidly clicking on calendar dropdown of DateField
27467	GUI	In AntialiasedFrame test, sometimes it doesn't look smoother for the setting ("2x" and "4x")
27508	GUI	panic resulting from "stretchiness must be greater than 0"
27609	GUI	external character cannot be shown in 5, 4 (Windows2000)
27628	GUI	Fatal Curl error happens when trying to reload test after installing font temporarily on client
26834	Plugin	IE7 tab titles and title bar after switching between tabs not set
27487	Plugin	IE6 can not load compressed giant applets
27368	Stdlib	IE7 HTTP timeouts still too short

Bug Fixes in Ver.5.02

Bug ID	Component	Summary
26240	Compiler	panic while expanding an object in debugger UI
26483	Compiler	DNP/Memory access violation on bad cast from String or FastArray
25861	Core	Surge can panic quietly when out of memory.
26422	Core	modify quoting of charset in http headers
26534	Core	file: incompatibility on dev/trunk
26646	Core	Lazy package cacher should ignore forced resync settings
26784	Core	Win32XObj.QueryInterface does not call AddRef
25850	Documentation	error from the first example box code in record-grid.curl
26536	Graphics	NullDereferenceException has been thrown during the audio test.
24802	GUI	show tab pane problem when there are many tabpanes
26059	GUI	problems with Thai combining characters
26283	GUI	Install-font-on-client fails on Vista RC1
26305	GUI	Japanese document sometimes cannot be printed out correctly
26393	GUI	Korean characters print overlapped from UDV or other Helvetica usage
26397	GUI	Maybe call SetProcessDPIAware() on Vista.
26404	GUI	"permanent" font downloading fails to survive reboots (windows)
26407	GUI	Modifying an open dropdown menu causes trouble
26471	GUI	Tab controls inadvertently took Standard UIs in 5.0
26603	GUI	Font fallback fails on Win2K with Asian IME
26604	GUI	"Alt + space" is consumed by some components.
26635	GUI	The vertical origin of the text in DateField is different with TextField and ComboBox.
26673	GUI	SRGUI layout exception changing from null record-source
26682	GUI	Difficult to select "" with mouse from RecordGrid dropdown
26717	GUI	Validation string not marked for translation
26719	GUI	Invalid entry in a field clears result from other field
26722	GUI	As of 1/1/07 you can't load dialogs-other.curl
26729	GUI	Exception when RecordGrid with self-defined columns and automatic columns changes record-source
26350	Install	We don't play "nice" with the win32 add/modify programs dialog
26500	Install	EULA has a typo: "TERMSAND"
26573	Install	The "--wait-for" logic in "deleter.exe" seems to be broken
26695	Install	We "forgot" to include "en" TEA support in Curl RTE 5.0 "ja"
26778	Install	trial installer not working properly
26241	Plugin	5.0 dialog for missing API versions is too "Curl techie"
26394	Plugin	Curl applet can't run on FireFox2.0 (Path of Curl applet including Japanese)
26480	Plugin	On Vista focus hacks do not work under IE
26512	Plugin	Vista: ConnectionAbortedSocketException when navigating applets
26524	Plugin	We let ActiveX's run surge.exe under Vista IE7 protected mode, which breaks their security model
26614	Plugin	Adding a Curl applet as a favorite does not work in IE 7
26641	Plugin	MissingFileException when ActiveXObject tries to access a file whose path contains space
26464	QTP	QTP may not record some Key Presses
26331	Security	Local host name can be obtained by unprivileged applet
26445	Security	async https security checks don't check subdirs for curl-access.txt
26579	Stdlib	cannot use ctrl+right menu on unprivileged applet
26626	Stdlib	small file cannot be read asynchronously on Windows
26632	Stdlib	regression with submitting multipart form with POST
26642	Stdlib	IE7 changed default timeouts for WinInet, causing Curl user problem
26509	VLE	[VLE]Sending to Back several controls together causes only one control holding the focus in layout panel.
26240	Compiler	panic while expanding an object in debugger UI
